

Important Update

Update: 25th March 2020

Like everyone in Australia and the broader global community, we are closely monitoring the COVID-19 situation and remaining flexible as it changes from day to day. The health and wellbeing of the Foundation Education community – our students, our industry partners and of course our team – as well as the broader community, is our main priority. The Senior Management Team within Foundation Education (FE) is responding to the situation as it evolves and considering the impacts on our community and operations.

As per revised regulatory guidelines, we are offering students the flexibility to defer their involvement in the work-placement practical components until a later stage, with the ability to continue the theory (online) course component.

Latest update for students

We will continue to remain open and available for your learning and support during this period. Our dedicated team can assist you with maintaining connectedness and progression with your studies.

FE acknowledges the current challenges faced by our students and during this time we will continue to maintain our principles of high quality service delivery.

What does that mean for you?

This is a great opportunity for you to focus on your studies. If FE can support you in any way, please get in touch.

Take care and stay well.

For more information

COVID-19 information and updates are available via the Australian Government – Department of Health website.
